

## ‘The Companion Cards’

### DISCOVER YOUR COMPANION!

– Calling all card & role play fanatics, animal admirer, soul seekers and art addicts.

Excuse me...what? Connect, communicate or contemplate with people in a delightful and playing way. Nancy Marisa Arlt, a Berlin based artist, famous for her ‘Richard Wagner’ paintings to his 200 year celebration in 2013 and other communication projects, designed a new playing card game called “The Companion Cards”.

This is not just another card game, but something completely new. It combines psychological and philosophical aspects to a playing card game. You find in 64 animal characters and its creative motifs a resonance, showing you a personal analysis with messages for your daily life. An amazing and intelligent fusion of gaming, psychology and art.

It is a deck of cards to fill your every day life with heartwarming magic, to change your perspective and to step into a surprising role play. An artistic collection of enigmatic cards created to connect people in a charming and entertaining way.

Enchant yourself with this deck of cards or you play it with your partner, family or friends. A creative and intuitive tool to make new connections with people.

Nancy Marisa Arlt launches her project on kickstarter.com during September 2017.

If you want to support her amazing project, check out her Kickstarter page:
